## K Body® REVO™ JR Powerful parallel clamping

### 1 Parallel clamping surface with jaw protection pads

Three large removable (for cleaning or replacement) pressure caps are resistant to glue, paint and solvents.

### 2 Wood handle

Ergonomically shaped.

### 3 Rail protection pieces

Pieces work to isolate and elevate the workpiece from the rail.

### 4 Removable end-clip

End-clip ensures clamp sits parallel to work surface. Removable to reverse sliding arm for use as spreader.

- The new K BODY® REVO™ JR is a mid-sized version of what makes the full-sized REVO parallel clamp so great.
- Parallel jaws, good power and a lighter relative weight, combined with a very competitive price point.

## Quick release QRCC, C-clamps

- Drop forged frame with a powder coated finish.
- Spindle and pressure pad are chrome plated.
- Press the red quick-release button for rapid fitting to a workpiece, when not under pressure. Do not release under pressure – this causes the quick release mechanism to wear out prematurely.
- Great for light duty, highly repetitive assembly work.
